**Carroll County Residents are reminded to get building permits for repairs to damaged structures.**

**Residents of Carroll County are reminded that with the recent Flooding, many structures in the community may have experienced damage. Repairs and/or reconstruction activities to the structures damaged due to the flooding that are located in the floodplain will require a local improvement location permit from the Area Plan Commission office as required by Carroll County Flood Hazard Ordinance (2014-03). Failure to obtain the necessary permits can result in fines up to \$ 1,000 with each day being considered a separate offense. In addition, depending on a property's location, a permit may also be required from the Indiana Department of Natural Resources prior to the start of any reconstruction activity.**

**For more information on the permitting process, contact the Carroll County Area Plan Commission office at 765-564-4468, located on the second floor of the County Courthouse, or on the Website:**
